Introduction and preliminary remarks

The variable reports of the Standard & Special Eurobarometer survey series offer a comprehensive description of the data on study and variable level. For each Eurobarometer individual variable reports are provided. The reports are structured into five sections: Section one provides the description of the respective Eurobarometer study, including bibliographic information, abstract, methodological specifications, remarks on weighting and general notes on data preparation. Section two gives an historical overview of the Eurobarometer Survey Series, including the institutional background and the development of geographical and topical coverage. A third section provides general information about the structure of Eurobarometer datasets, documentation standards and variable coding frames. Section four explains the details of the 'Variable Documentation' part in the following section five, which is the documentation of the variables with the complete question texts and answer categories of the master questionnaire and the corresponding archival remarks on data preparation or inconsistencies, if applicable. In addition, this variable report contains frequency counts by country (sample), for almost all variables. These frequencies are based on weighted data using the adequate post-stratification weight, if applicable and as indicated in each table.

Data access

Individual level micro data for statistical analysis and related documentation (basic bilingual questionnaires, national field questionnaire versions and variable reports) are made available online by GESIS through the DBK data catalogue (https://www.gesis.org/dbk) and through the ZACAT online data portal (https://zacat.gesis.org). Access to the Eurobarometer primary data is also provided by the Inter-university Consortium for Political and Social Research through the ICPSR membership network, as well as supported by the Social Science Data Archives members of the Council of European Social Science Data Archives (CESSDA).

Usage requirement

To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about related research activities, users of the data are requested to send bibliographic citations for each completed manuscript or thesis abstract to the providing data archive, GESIS or ICPSR. Please indicate in a cover letter which data (surveys and variables) were used.

Disclaimer

The original collector of the data, ICPSR, GESIS, and the relevant funding agencies bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.

1 Study description – Eurobarometer 83.1

1.1 Bibliographic information

1.1.1 Archive study numbers

GESIS: ZA5964
ICPSR: 36665

Under a co-operative arrangement for the archival processing and distribution of Standard & Special Eurobarometer, ICPSR and GESIS employ its own archive study identification number and persistent URL. Apart from that the datasets are completely congruent as far as identified by the same release version.

1.1.2 Title and archive subtitle

Eurobarometer 83.1
Europeans in 2015, Data Protection and the Internet
February-March 2015

1.1.3 Principal investigator(s)

European Commission, Brussels;
Directorate-General for Communication (COMM.A.1 ´Strategy, Corporate Communication Actions and Eurobarometer´)

1.1.4 Bibliographic citation and DOI reference

Publications based on data collections which are made available through ICPSR or GESIS should acknowledge those sources by means of bibliographic citations. To ensure that such source attributions are captured for social science bibliographic utilities, citations must appear in footnotes or in the reference section of publications. The bibliographic citation for this data collection is:

> European Commission, Brussels: Eurobarometer 83.1, February-March 2015.
> TNS opinion, Brussels [Producer];
> GESIS, Cologne [Publisher]: ZA5964, dataset version 2.0.0, DOI: 10.4232/1.13071 (2018).

The registered Digital Object Identifier (DOI) persistently identifies this dataset version with reference to former (or more recent) versions and potential errata and update documentation in the GESIS data catalogue (DBK).

1.2 Content

1.2.1 Abstract

This round of Eurobarometer surveys covers the following special topics: (1) Europeans in 2015 and (2) Data Protection and the Internet. Regarding these two topics, respondents were asked about their Internet activity, personal data disclosure, online data disclosure reasons, government data collection revelations, online data disclosure risks, social web privacy, and data protection complaints. In addition, respondents were asked their opinions on the economic situation in their countries, how much they trusted certain institutions, and how often they discuss political matters with friends or relatives.

Demographic and other background information collected includes age, gender, nationality, language, marital status, occupation, age when stopped full-time education, household composition, ownership of durable goods, difficulties in paying bills, self-assessed social class, and Internet use. In addition, country-specific data includes type and size of locality, region of residence, and language of interview (select countries).

1.2.2 Topic classification

- International Institutions, Relations, Conditions
- Communication, Public Opinion, Media
- Legal system, Legislation, Law

CESSDA Topic Classification
- 11.2 International politics and organization
- 9.1 Information society
- 6.1 Legislation

Survey coordinated by the Directorate-General Communication ´Strategy, Corporate Communication Actions and Eurobarometer´ Unit. Brussels, March 2015.
- European Commission: Special Eurobarometer 431. Data protection. Survey conducted by TNS opinion & social at the request of the European Commission, Directorate-General for Justice and Consumers (DG JUST). Survey coordinated by the Directorate-General Communication ´Strategy, Corporate Communication Actions and Eurobarometer´ Unit. Brussels, June 2015.

1.3 Universe

In all, Eurobarometer 83.1 interviewed 27.980 citizens in the 28 countries of the European Union after the 2013 enlargement (accession of Croatia in July 2013). All respondents were residents in the respective country, nationals and non-national EU-citizens, and aged 15 and over. They were supposed to have sufficient command of one of the respective national language(s) to answer the questionnaire. Separate samples were drawn for Great Britain and Northern Ireland as well as for East and West Germany.

1.4 Sampling procedure

A multi-stage, random (probability) sampling design was used for this Eurobarometer. In the first stage, primary sampling units (PSU) were selected from each of the administrative regionals units in every country (Statistical Office of the European Community, EUROSTAT NUTS 2 or equivalent). PSU selection was systematic with probability proportional to population size, from sampling frames stratified by the degree of urbanization. In the next stage, a cluster of starting addresses was selected from each sampled PSU at random. Further addresses were chosen systematically using standard random route procedures as every Nth address from th initial address. In each household, a respondent was drawn, at random, following the closest birthday rule. No more than one interview was conducted in each household.

The regular sample size (in the sense of completed interviews) is 1000 respondents per country, except the United Kingdom with separate samples for Great Britain (1000) and Northern Ireland (300), Germany with separate samples for the Eastern (500) and the Western part (1000), and Luxembourg, Cyprus (Republic) and Malta with 500 interviews each. The effective number of realized interviews in this round is indicated in table 1.

1.5 Fieldwork

From February 28 to March 9, 2015, TNS opinion carried out the fieldwork for this Eurobarometer, at the request of the European Commission, Directorate-General for Communication. TNS opinion is based in Brussels, Belgium, and co-ordinates the fieldwork carried out through its network of national institutes:

1.6 Mode of data collection

In all countries, fieldwork was conducted on the basis of detailed and uniform instructions prepared by TNS opinion. Interviews were conducted face-to-face in people´s home in the respective national language. As far as the data capture is concerned, CAPI (Computer Assisted Personal Interview) was used in those countries where this technique was available.

Equivalent French and English basic questionnaires were developed for this Eurobarometer. These questionnaires were translated into other languages by the firms responsible for interviewing in each country. Back-translation procedures were applied for controlling semantic equivalence. Multi-language questionnaires are applied if appropriate (Belgium, Luxembourg, Spain, Finland, Estonia, Latvia, Malta).

In each country only the national language version(s) of the questionnaire is (are) used; in countries with more than one official language, the language version is selected at the beginning of the interview.

1.7 Weighting

In general, the Standard and Special Eurobarometer data sets provide for two types of weighting, a post-stratification sample weighting and a population size weighting.

For each sample, i.e. participating country or lower level region, a comparison between the sample composition and a proper universe description is carried out for internal weighting purposes. The universe description is made available by the National Survey Research Institutes and/or by EUROSTAT. On this basis, a national weighting procedure, using marginal and intercellular weighting, is applied. As such, in all countries, minimum sex, age, region NUTS II (basic regions as defined by the EUROSTAT nomenclature of territorial units for statistics), and size of locality are introduced in the iteration procedure. This **post-stratification weighting** is also referred to as redressment or non-response weighting. A design weight which would adjust for unequal selection probabilities (depending on the household size) is not made available.

For the descriptive analysis of individual samples or their comparison up to six weighting variables are provided in each data set and documented as such in the variable description. Until Eurobarometer 31 the corresponding

weight variable is labelled NATION WEIGHT II. Weighting factors were then not included continuously for all samples and weighting procedure might have differed from the foregoing description. While weighting usually reproduces the real number of cases for each sample, between Eurobarometer 33 and 54.1 samples can also be adjusted to their predefined standard size of exactly 1000 or 500 cases. This option was applied for the official Eurobarometer reports of the period.

The **population size weighting** factors correct for the fact that most samples are of almost identical size, no matter how large or small the populations are from which they were drawn. These weights ensure that each country or lower level area sample (Great Britain and Northern Ireland, East and West Germany) is represented in proportion to its population size within different groupings according to the historical states of European unification (e.g. founder members, new members, Euro zone countries) in the case of the EUROPEAN WEIGHTS, as well as within the United Kingdom (WEIGHT UNITED KINGDOM, NATION WEIGHT I until Eurobarometer 31) or Germany as a whole (WEIGHT GERMANY).

The population size weights all include the post-stratification weighting factors. The EUROPEAN WEIGHTs adjust each sample in proportion to its share in the total population of the European Union (formerly European Community), aged 15 and over. These adjustments are based on population figures published by EUROSTAT in the Regional Statistics Yearbook. In some cases more than 20 European weights are provided for use in analyses of the European Union population as a whole or in accordance with its historical compositions. Between Eurobarometer 33 and 54.1 adjustments to the predefined standard sample size is taken into account. In general, all countries or samples which do not belong to the respective group under consideration are excluded from calculation. The special weights for the United Kingdom and Germany do exclude all other countries from calculation starting with Eurobarometer 62. The application of post-stratification weights is recommended for descriptive (univariate) analysis. Meaningful descriptive results for groups of countries or for countries with separate samples (United Kingdom and Germany) require population size weighting. Official Eurobarometer reports are always based on weighted data.

Starting with Eurobarometer 66.2, a new additional weight (WEIGHT EXTRA) is provided which extrapolates the actual universe (population aged 15 or more) for each country or sample. This weight variable integrates all other available weights, but does not reproduce the number of cases in the data set, but the respective actual population size.

As needed, OVERSAMPLES (see chapter 2.4, table 4) are weighted separately, as documented in the respective study and weight variable description. In some surveys, special weights are made available for application with selected variables on a specific topic, e.g. for the descriptive analysis of variables regarding e-communication equipment on HOUSEHOLD level.

Eurobarometer 83.1 provides three (post-stratification) NATION WEIGHTS: W1 (WEIGHT RESULT FROM TARGET) for separate analysis or comparison of individual samples (countries or regions on sub-national level), W4 (WEIGHT UNITED KINGDOM ONLY) which in addition adjusts the British and the Northern Irish samples to their respective proportions in the United Kingdom for descriptive analysis of the United Kingdom as a whole, and W3 (WEIGHT GERMANY ONLY), which adds the adjustment of the East and West German samples to their respective proportions in the United Germany, to be used for descriptive analysis of the United Germany as a whole. W3 and W4 exclude all other countries from calculation, but include the post-stratification factors for the United Kingdom and Germany respectively.

Starting with Eurobarometer 75.4 and in accordance with former practice up to Eurobarometer 61, the archive started to derive (see 1.8. Data preparation) three additional weights W3A, W4A, W3A_W4A in order to provide

for the analysis of the United Kingdom and/or Germany as a whole together with all other samples, as separate countries (samples). W3A (WEIGHT RESULT FROM TARGET – UNITED GERMANY) combines the weighting factors for Germany as a whole (redressment factors plus populations size factors East/West) and the redressment factors for all other countries (Great Britain and Northern Ireland separated). W4A (WEIGHT RESULT FROM TARGET – UNITED KINGDOM) combines the weighting factors for the United Kingdom as a whole (redressment factors plus populations size factors) and the redressment factors for all other countries (Germany East and West separated). W3A_W4A (WEIGHT RESULT FROM TARGET – NATION) combines the weighting factors for the United Kingdom as a whole, the weighting factors for Germany as a whole), and the redressment factors for all other countries. Unlike the originating weights, W4 (WEIGHT UNITED KINGDOM ONLY) and W3 (WEIGHT GERMANY ONLY), all countries are included in calculations.

The EUROPEAN WEIGHTS provide adjustments for each (national) sample in proportion to its share in the total population aged 15 and over, of the European Union, within groups of member countries, of accession or candidate countries, and of Euro zone countries, representing different historical states of European integration (e.g. EU6 = six founder members) . All post-stratification factors are included.

Table 2: Overview of population size weights on European level

European Weights in Eurobarometer 83.1	Function
W5 to W9, W11, W14, W22, W23	grouping EU member countries
W10, W13, W15, W18, W24, W94	grouping new member countries
–	grouping candidate/accession countries
–	grouping member + candidate/accession countries
W29, W30, W81, W82, W83, W84, W85, W86, W89, W90, W98, W99	grouping (non-)Eurozone countries
	extrapolating population size (15+) for each country

For more detailed information on the individual weights please see the corresponding variable description.

1.8 Data preparation

The data received by GESIS from TNS opinion were checked for completeness, missing data and duplicate records, for illegal (wild) codes and for (formal) consistency of response patterns and question routing. Errors discovered by these procedures are documented or corrected, as a general rule after consulting related additional documentation (e.g. tabular reports) or the data provider. Indices and other derived summary variables were also checked and corrected as necessary. Complete machine-readable DDI-XML compliant documentation was created for this dataset by GESIS.

Starting with Eurobarometer 76.1, the traditional variable naming by serial V-numbers (V1 to Vn) has been replaced by a system based on question and item numbers in the questionnaire and elsewise on standard mnemo-technicals. The dot used in the original TNS variable names for multiple response dummy variables is replaced by underscore in view of potential software incompatibilities.

The archive identification variables comprise the archive study identification number (´studyno´), the digital object identifier (´doi´) of the present dataset version, the version number and date (´version´) and the edition type (´edition´). A unique case id (´uniqid´) for the complete dataset has been constructed from the TNS country id (digits 1-2) and the TNS case/respondent id (digits 3-8).

Three country/sample identification variables are supplied, maintaining the original country/sample codes (´tnscntry´), applying the established archive standard codes for the Eurobarometer series (´country´), and an alphanumerical variable applying the ISO 3166-1 alpha-2 codes (´isocntry´) with adaptations for Great Britain and Northern Ireland (ISO 3166-2), for East and West Germany, and for Northern Cyprus (Turkish Cypriot Community).

GESIS added ´Inappropriate´ (INAP) codes to indicate intentionally skipped questions when it could be determined that the appropriate skip instruction in the original questionnaire was adhered to for (almost) every respondent. An additional INAP category was defined whenever a question or group of questions were not surveyed in one or more countries, or if variables refer to country specific items (e.g. region variable P7).

Users should note that answers to multiple-response questions are (originally) represented by a series of binary ´dummy´ variables (i.e. variables which take on values of one and zero only), creating separate ´dummy´ variables also to explicitly represent ´Don´t know´, ´No answer/refusal´ or other residual responses, such as ´None of the above´. The archive has recoded these residual responses in the case of uncommon minor inconsistencies in accordance with the series of substantial answers.

GESIS has recoded the missing answers (NA) represented in the original data set by blanks (system missing) to standard values. Their practically complete absence suggests that eventual cases of any not explicitly coded item non-response might be collapsed with the DK (don´t know) category.

Question text and contingency text appearing in the variable description is taken from the English language version of the basic (bilingual) questionnaire (master questionnaire). Coding schemes and other documentation are based on the English language version of the basic questionnaire or on the respective SPSS data definition statements as provided by TNS opinion. In case of any discrepancy between questionnaires, SPSS definitions and data regarding the coding scheme of a variable, the archive, as a general rule, carried out any correction in agreement with the data provider.

If the documentation for country-specific questions or answer categories is provided in another language than English, the archive documents the original language wording and supplies the English translation in brackets.

Region NUTS 2 categories for Portugal have been edited and adapted to changes as of 2002 (NUTS version 2003) which are reflected in Eurobarometer starting with wave 62 (confirmed by TNS). Region NUTS 1 categories for Greece have been edited correcting for the non-coverage of Ionian and Aegean Islands starting with Eurobarometer 62 (confirmed by TNS).

P7 (REGION – NUTS CODES) – variables ´nuts´ and ´nutslvl´: The integrated NUTS variable has been derived by the archive from the original TNS country-wise P7 variables in accordance with NUTS units and (alphanumeric) codes defined in the Nomenclature of Territorial Units for Statistics. For each country the lowest subdivision level has been considered insofar consistent with or clearly mappable to one of the NUTS levels as valid for the relevant time period (https://ec.europa.eu/eurostat/web/nuts/history).

Starting with Eurobarometer 73.5 (June 2010) the original data for p13be (LANGUAGE OF INTERVIEW - BELGIUM) are usually reversed, i.e. (almost) all respondents in NUTS 1 regions Wallonia and Brussels are coded as "Dutch" and (almost) all respondents in the Flemish Region as "French" in p13be. This is true for EB 83.1 and the data have been corrected by the Archive since version v1-0-0.

The coding for LANGUAGE OF QUESTIONNAIRE in LUXEMBOURG was highly questionable. If comparing frequencies for GERMAN and FRENCH with former waves, these two categories are supposed to be exchanged. The variable has been corrected by the Archive (recode p13lu (2=3) (3=2)) in version v1-0-0.

W3A/W4A (NATION WEIGHTS) – variables ´w3a´/´cntry_de´, ´w4a´/´cntry_gb´, ´w3a4a´/´nation´: Starting with Eurobarometer 62 the original SPECIAL WEIGHTS for the UNITED GERMANY (East + West) and the UNITED KINGDOM (Great Britain + Northern Ireland) automatically exclude all other samples/countries from the calculation. In accordance with former practice up to Eurobarometer 61, the archive now started to derive three additional weights (W3A, W4A, W3A_W4A) in order to provide for the analysis of the United Kingdom and/or Germany as a whole together with all other samples, as separate countries (nations). They combine the weights W3 (population size + redressment factor for Germany) or/and W4 (population size + redressment factor for the United Kingdom) with W1 (redressment factor for all other countries).

All INDEX and TOTAL variables have been checked and documented accordingly.

More detailed information on data preparation, harmonization or regarding inconsistencies is noted on variable level, if applicable.

1.9 Further remarks

Module QA asks a subset of Standard Eurobarometer trend questions with last appearance in the context of Eurobarometer 82.3 (ZA5932). Module QB on ´Data Protection´ partly replicates questions asked in the context of Eurobarometer 74.3 (ZA5450).

Starting with Eurobarometer 81.3, the category scheme for country specific protocol variables P6 (SIZE OF COMMUNITY) has changed considerably, except for Germany. Categories for all other countries have been harmonized among each other to three values (Rural area - Towns and suburbs/small urban area - Cities/large urban areas).

Starting with Eurobarometer 81.3 the category scheme for country specific protocol variables P7 (REGION) has changed for some countries, in particular introducing NUTS categories for Ireland, Estonia, and Croatia.

A dataset update has been provided by TNS and weighting variable WEXTRA (WEIGHT EXTRAPOLATED POPULATION 15+) has subsequently been merged into the dataset release (v2.0.0) by the archive.

Data for protocol variables p8 (postal code), p9 (sample point number) and p10 (interviewer number) have not been made available.

2 Eurobarometer series description

2.1 Series name

The Standard and Special Eurobarometer (a.k.a. Euro-Barometer) Survey Series

2.2 Series information

The Standard and Special Eurobarometer surveys are the products of a unique program of cross-national and cross-temporal survey research. The effort began in early 1970, when the Commission of the European Communities sponsored simultaneous surveys of the publics of the European Community. In general, they are carried out in spring and fall of each year. Three pilot studies were conducted in 1970, 1971 and 1973 under the header of European Communities Studies; ´Attitudes towards Europe´ (GESIS study ZA0078), the very first comparative survey across European Communities founder members in 1962, can be seen as an early forerunner. The primary data of the first explicit Eurobarometer, conducted in spring 1974, have not been preserved.

2.3 Principal investigators and institutional background

The Eurobarometer program was initially launched and managed until 1986 by Jacques-René Rabier, head of the Commission's press and information directorate and afterwards special advisor to the Commission of the European Communities. He had the political support of the European Parliament and the close co-operation of Ronald Inglehart. The political scientist at the University of Michigan was then developing his theory of value change in modern societies and his materialist/post-materialist items would become integral part of the Eurobarometer until the mid nineties. Between 1987 and 1996 the program was continued and considerably enlarged under the direction of Karlheinz Reif, since 1993 together with Anna Melich.

Anna Melich took over the Eurobarometer direction from 1997 to 1999, by then still within the organizational framework of the former Directorate-General X, Public Opinion Surveys and Research Unit. In 2000/2002 Eurobarometer were intermittently conducted in the framework of the DG Education and Culture, Citizens´ Centre - Analysis of Public Opinion under the direction of Harald Hartung, and starting with Eurobarometer 54 under DG Press and Communication, initially directed by Thomas Christensen. Since 1999, the organisation and supervision of the surveys were consecutively executed by Rubén Mohedano-Brèthes (until 2002) and Renaud Soufflot de Magny (until 2006), with Antonis Papacostas as head of unit between 2003 and 2010.

At present, the Eurobarometer surveys are carried out on the general responsibility of the European Commission Directorate-General Communication, COMM.A.3 ´Media Monitoring, Media Analysis and Eurobarometer', with Maria Letizia Albergati as head of the unit and David Voidies as head of the Eurobarometer sector.

The special topic modules are requested by the respectively responsible EC Directorate General, as regards the content. Since 2007, the European Parliament is commissioning its own survey ("Parlemeter") through the Public Opinion Monitoring Unit of the European Parliament, in close cooperation with the DG COMM unit and within the same survey framework.

The main survey results are regularly published on the European Commission's Public Opinion website (http://ec.europa.eu/COMMFrontOffice/PublicOpinion/index.cfm) in official standard and special topic reports;

detailed tabular reports are published through the European Union Open Data Portal (https://open-data.europa.eu/en/data/).

2.4 Development of geographical and population coverage

In all European Union (formerly European Communities) member countries Standard Eurobarometer samples were initially drawn among the national population, aged 15 and over. Starting with Eurobarometer 41.1 the target population is the population of any nationality of an European Union member country, aged 15 years and over, resident in any of the Member States. For test purposes Eurobarometer 41.0 included a non-national European Union citizens oversample.

Eurobarometer regularly include all member countries, starting with the six founder members and in accordance with the enlargement process. Norway has been in-officially included in selected waves between 1989 (EB34) and 1996 (EB46), Finland started before the actual enlargement in 1993 (EB39.0), and a few Swiss Eurobarometer were run in parallel to selected waves or topics, starting in 1999 (EB51.1). Candidate Countries (CC) and Accession Countries (AC) for the Eastern enlargement process were first surveyed in the Candidate Countries Eurobarometer series (2001-2004) and then all included in the Standard Eurobarometer series, even before starting the accession process (e.g. Turkey or Macedonia). Further countries are continuously added in accordance with the EU membership application and accession process.

Additional samples are drawn for Great Britain and Northern Ireland almost from the start, in Germany (East and West) after the re-unification in 1989, and in Cyprus for the Turkish Cypriot Community (Northern Cyprus) since 2004 for selected standard and topical waves.

Table 3: EU enlargement and countries covered by Standard and Special Eurobarometer

The regular standard sample size (in the sense of completed interviews) in Eurobarometer surveys is 1000 respondents per country, except small countries like Luxembourg or Malta. The 44.2bis MEGA-survey increased the standard sample up to 6000 respondents (for the largest countries) in order to achieve more confidence for analysis on sub-national level.

Oversamples have been drawn intermittently if required by the topic, i.e. to ensure that there are enough members of the relevant population subgroup to report sufficiently reliable estimates. Intentionally more people are selected from the respective group than would typically be done if everyone in the sample had an equal chance of being selected.

Table 4: Oversamples for special topic Eurobarometer

Topic	(Over-)Sample	Eurobarometer Survey
Young Europeans	Youth aged 15-24, 16-30	17, 28.1, 34.2, 47.2OVR, 55.1OVR, 85.2OVR
Elderly Europeans	Elderly aged 60+	37.2
Consumer Behaviour	Responsible for shopping	41.0
Unemployment	Unemployed	44.3OVR
Working Conditions	Professionally active	37.0+1, 39.0+1
Drug Abuse	Youth aged 15-24	43.0+1, 57.2OVR
Education Issues	Youth aged 15-24	44.0 / 44.1 (data not integrated)
Sampling experiment	Non-Nationals	41.0

2.5 Standard question program and special topics

The Standard Eurobarometer surveys were designed to provide a regular monitoring of the social and political attitudes among the European publics, to obtain regular readings of support for European integration, public awareness of and attitudes toward European unification, the institutions of the European Community / European Union, and its policies in complementary fashion. Attitudes toward the organization and role of the European Parliament and electoral behavior became a major topic in pre- and post- European Elections times. The standard program was complemented by measures of general socio-political orientations, of subjective satisfaction and the perceived quality of life, or of cultural, national and European identities.

Intermittently, Standard Eurobarometer have investigated SPECIAL TOPICS, such as agriculture, biotechnology, energy, environment, family planning, gender roles, health related issues, immigration, poverty and social exclusion, regional identity, science and technology, information society, working conditions, urban traffic, knowledge of languages etc. In the case of some supplementary studies, special youth and elderly samples have been drawn (see table 4).

Starting with Eurobarometer 34 (1990), additional supplementary surveys on special issues have been conducted under each main wave number, identified by dot-separated sub-numbers for each individual survey. Usually only one survey per main wave includes the standard and trend module with focus on European integration issues (table 5). Selected subsets of standard trend questions appear in the context of related special topics (e.g. "The Future of Europe" or "European Parliament Eurobarometer").

Table 5: Overview of Eurobarometer surveys with standard EU and trend question modules

Further and regularly updated information on the Eurobarometer survey series is provided through the GESIS Eurobarometer Data Service micro-site: https://www.gesis.org/eurobarometer-data-service/home/

3 Dataset structure and standards

Archive processing and documentation of the Standard and Special Eurobarometer are based on standards agreed upon between the Inter-university Consortium for Political and Social Research (ICPSR) and the GESIS Data Archive department (formerly Zentralarchiv für Empirische Sozialforschung), which may in some details diverge from the usual ICPSR or GESIS archive standards. In addition and as long as reasonable, it was adhered to standards once established for the Eurobarometer series in the course of the years.

3.1 Dataset structures

In general, the variable structure of the analysis dataset is aligned to the basic bilingual questionnaire, preceded by a set of administrative/technical variables. These comprise the ARCHIVE and dataset ID variables (studyno1, studyno2, doi, version, edition, survey, split (if applicable), caseid, uniqid), the COUNTRY ID variables with several standard variables identifying the different countries (or sub-national samples) and relevant groups of countries (or sub-national samples) in the dataset, arranged in pairs with the corresponding WEIGHT variables provided by the fieldwork institutes (see 1.7). A special alphanumeric variable ('isocntry') is provided based on the ISO 3166 country code standard (see 1.8).

The questionnaire variables usually consist of three types, the substantial questions (Q), the Eurobarometer standard demographics (D) and the interview protocol variables (P). Starting with Eurobarometer 76.1, the traditional variables naming by serial V-numbers (V1 to Vn) is replaced by a system based on question and item numbers in the questionnaire and elsewise on standard mnemo-technicals (see 1.8). Likewise, from survey 76.1 onwards, constructed total or index variables, usually as provided by the fieldwork institute, are listed right after the question variables on which they are based. The dataset is concluded by three additional weights and their corresponding NATION country variables ´w3a´/´cntry_de´, ´w4a´/´cntry_gb´, ´w3a4a´/´nation´ (see 1.8).

Variable labels are standardized in the sense that they provide keywords based on the question text and that these keywords are applied consistently if questions or question items are repeated over time (trend variables). Variable label may include abbreviations if required, e.g. limitations regarding the length of variable labels in older versions of statistical analysis software. Starting with Eurobarometer 33 und up to wave 75 the variable labels include the respective question number as a reference to the basic bilingual questionnaire.

3.2 Coding frames

By general rule, the variables adopt the coding frame as specified in the basic bilingual questionnaire, except for multiple response questions (see 1.8), questions with country specific answer categories and missing values.

3.2.1 Country specific answer categories

Eurobarometer include some questions (variables) with country specific answer categories like INCOME, SIZE OF COMMUNITY, REGION or variables related to VOTING BEHAVIOUR with reference to POLITICAL PARTIES. Until Eurobarometer 48 only one integrated variable is supplied with each category representing country specific meanings (e.g. geographic regions) which are not documented within the analysis dataset by means of value labels, but only in the extended variable description in the variable report. Starting with Eurobarometer 49, the integrated variables are retained but complemented by completely labeled country specific variables. The country

specific coding schemes and categories are maintained as a standard over time as long as the category schemes provided in the questionnaire remain comparable.

Starting with Eurobarometer 74.1, an additional standardized REGION variable 'nuts' (REGION - NUTS CODES) is constructed, integrating all participating countries with regional units defined in accordance with the EUROSTAT Nomenclature of Territorial Units for Statistics (NUTS). For each country the lowest available NUTS subdivision level is considered, whereby the hierarchical structure always implies all higher subdivision levels. The official NUTS codes are coded verbatim in accordance with the in each case valid (applicable) NUTS version as documented in the official EUROSTAT classification history (History of NUTS). A second variable indicates the lowest coded NUTS LEVEL 'nutslvl' for each country. All original regional subdivisions and categories remain coded separately and unchanged in the country-wise P7 variables. Details are documented with the respective country specific and/or integrated variable.

3.2.2 Missing values

In general, missing value codes are defined in accordance with the standard once established for the Eurobarometer series, in particular the default use of whatever value supplied by the basic questionnaire for DK ("don't know") responses, unless a standard coding scheme is applied for demographic or protocol variables. The value 0 is applied for NA (i.e. "not ascertained" resp. "no answer") and the value 9 (99, 999, …) for INAP (i.e. "inappropriate" resp. "not applicable"). If one of these values falls into the valid range of codes, the missing values are shifted to the next available missing value code or "level", e.g. if 0 is used in a dichotomous variable (NOT MENTIONED), value 9 is used for NA, respectively value 8 if value 9 is already used for INAP. If necessary the corresponding two- or more digit codes are used (99, 999, 98, 998 …). Recently separate missing values are coded for INAP depending on whether the respondent was not asked a question due to questionnaire routing (filter non-response) or whether the question was not provided for in the country's field questionnaire. Other missing values (e.g. REFUSAL) are coded with the in each case next available code (e.g. 7, 97, 997, …). In the analysis data set these codes are by default declared and treated as USER MISSING, but may be modified by the user to suit specific needs.

As noted in chapter 1.8, missing answers (NA) represented in the original dataset by blanks (system missing) have been recoded to standard values by GESIS. Their practically complete absence suggests that eventual cases of any not explicitly coded item non-response might be collapsed with the DK (don´t know) category.

3.3 International documentation standard (DDI)

The study and variable level documentation is set up in accordance with the international metadata specifications for the social and behavioural sciences, established by the Data Documentation Initiative <DDI>. The variable reports are based on the XML representation of DDI version 2. The variable level documentation combines the exact wording and sequence of question components (question text, interviewer instruction, response categories, etc.) from the basic bilingual (master) questionnaire with the variable description (variable name, values, and labels) of the analysis dataset. General remarks and comments referring to a certain variable are defined as variable notes. Notes can be references to trend (comparability) information, standards applied for coding frames, problems in questionnaire translation, but also references to data problems or other specific characteristics.

4 Explanation of the variable documentation

The variable documentation part describes each variable in the analysis data file in terms of relevant metadata and frequency distributions. The variable documentation is set up by means of the GESIS Dataset Documentation Manager (DSDM) and in accordance with international metadata standards (DDI-Codebook/XML).

In general, the following abbreviations are used to indicate countries or (sub-national) areas. As far as applicable, the ISO 3166-1 alpha-2 country codes have been applied and coded accordingly in the alphanumeric sample identification variable (COUNTRY CODE - ISO 3166). In the case of Greece the non-ISO abbreviation EL* is used in parallel, as introduced by EUROSTAT as of NUTS version 2010.

AL	Albania	IE	Ireland
AT	Austria	IT	Italy
BE	Belgium	IS	Iceland
BG	Bulgaria	LT	Lithuania
CY	Cyprus	LU	Luxembourg
CY-TCC	Turkish Cypriote Community	LV	Latvia
CZ	Czech Republic	ME	Montenegro
DE	Germany (-1989)	MK	Macedonia (FYROM)
DE-W	Germany West (1990 ff.)	MT	Malta
DE-E	Germany East (1990 ff.)	NL	The Netherlands
EE	Estonia	NO	Norway
ES	Spain	PL	Poland
FI	Finland	PT	Portugal
FR	France	RO	Romania

GB-NIR	Northern Ireland	SI	Slovenia
GR / EL*	Greece	SK	Slovakia
HR	Croatia	TR	Turkey
HU	Hungary		

The example explained below reproduces the information appearing in the variable documentation part for a typical substantive variable. Results are usually broken down by country (sample) or represented by frequency counts in the case of country specific variables. In the case of variables with long lists of coded "real" values (e.g. age), results are only presented for the corresponding categorized variable, if available. The content and construction of technical, administrative or other generated variables is described as appropriate.

The frequencies for substantive variables are calculated on the base of weighted data, as indicated with each table and in accordance with the European Commission's official Eurobarometer reports. Typically the sample specific post-stratification (redressment) weight is applied (WEIGHT RESULT FROM TARGET or NATION WEIGHT II). Due to rounding, users may find slightly different figures if using other statistical packages, especially if the number of cases is very low.

The complete question and answer texts are taken from the English language part of the respective basic bilingual questionnaire (master questionnaire) as provided by the coordinating fieldwork institute.

Header with DIGITAL OBJECT IDENTIFIER (DOI) linked to the study description in the GESIS Data Catalogue.	Eurobarometer 67.1 - February-March 2007 GESIS Study No. 4529 (v 3.0.1); doi: 10.4232/1.10983

VARIABLE NAME (serial number assigned by the archive) and VARIABLE LABEL as defined in the dataset.

v77 - QA1 FEELING FULFILLED: PROFESSIONAL LIFE

QUESTION NUMBER and full QUESTION TEXT from the basic questionnaire, including interviewer instructions. The numbers or letters that may appear together with the original question number reflect the item order (multiple item or multiple response questions), or indicate if a question was recoded (R) or summarized (T), or if asked only in a single country (country abbreviation).

Q.A1
ASK Q.A IN EU27
To what extent would you say that the life you live allows you to feel fulfilled in...?
(SHOW CARD WITH SCALE - ONE ANSWER PER LINE)
(READ OUT)

Q.A1_2 Your professional life

CODE VALUES occurring in the data for this variable and complete ANSWER TEXT from the basic questionnaire. Code values may differ from the questionnaire specification due to standardization. Abbreviations commonly used in the code definitions are DK (don't know), NA (not ascertained) and INAP (inappropriate).

1 Totally fulfilled
2 Fairly fulfilled
3 Not very fulfilled
4 Not at all fulfilled
5 Not applicable (SPONTANEOUS)
6 DK
9 Inap. not EU27 (not coded 1 to 31 in V6)

CROSS-TABULATION: The absolute frequencies of the occurrence of values (*absolute values*) refer to the number of cases in the weighted dataset as indicated, in this case *weighted by V8*. The relative frequencies (*row percent*) refer to the valid cases (*n valid sum*), i.e. the total number of cases (*n sum*) reduced by the number of cases defined as missing data (*M*). For display and place saving reasons excluded countries or areas may be completely dropped from the table.

FREQUENCY COUNTS: For country specific variables relative frequencies are calculated in- and excluding missing data (*M*), i.e. *percent* on the basis of all cases (*sum*) and *valid percent* on the basis of the *valid cases*.

5 Variable documentation

Variable, Label
Question Text (English Language)

studyno1 - ARCHIVE STUDY NUMBER - DISTRIBUTOR

Archive study number – distributor

Study number of the distributing data archive.

5964   GESIS STUDY ID ZA5964

studyno1

Value	Label	Missing	Count	Percent	Valid Percent
5964	GESIS STUDY ID ZA5964		27980	100.0	100.0
	Sum		27980	100.0	100.0
	Valid Cases		27980		

studyno2 - ARCHIVE STUDY NUMBER - PUBLISHER

Archive study number – publisher

Study number of the data archive which is publishing this dataset version.

5964   GESIS STUDY ID ZA5964

studyno2

5964	GESIS STUDY ID ZA5964		27980	100.0	100.0
	Sum		27980	100.0	100.0
	Valid Cases		27980		

doi - DIGITAL OBJECT IDENTIFIER

Digital object identifier

This variable holds the Digital Object Identifier (DOI) for the dataset at hand as registered via the da|ra registration agency for economic and social science data. Each dataset version (see variable 'version') has a unique persistent DOI.

For direct access to the complete archive dissemination package for this study, including new dataset versions, the DOI needs to be appended to the resolver service URL: http://dx.doi.org/doi:10.4232/1.13071

In terms of good scientific practice, the DOI is an important element for the correct citation of a dataset.

doi

Value	Label	Missing	Count	Percent	Valid Percent
doi:10.4232/1.13071			27980	100.0	100.0
	Sum		27980	100.0	100.0
	Valid Cases		27980		

version - GESIS ARCHIVE VERSION & DATE

GESIS archive version & date

2.0.0 '2018-08-10'

This variable identifies the GESIS archive version number of this data set and the corresponding release date, recorded as an alphanumeric string. The version number is composed of a sequence of three numbers. The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases), the minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels), and the third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

For details of the version history and for information on errata in current or former dataset versions, please consult the GESIS data catalogue entry (study description) persistently referenced by the dataset DOI (Digital Object Identifier).

version

Value	Label	Missing	Count	Percent	Valid Percent
2.0.0 (2018-08-10)			27980	100.0	100.0
	Sum		27980	100.0	100.0
	Valid Cases		27980		

edition - DATASET EDITION

Dataset edition

This variable identifies the type of archive release for the dataset at hand.

1   Archive pre-release

2   Archive edition

edition

Value	Label	Missing	Count	Percent	Valid Percent

survey - SURVEY IDENTIFICATION

Survey identification

The number identifying the Eurobarometer survey.

831   Eurobarometer 83.1 (February-March 2015)

survey

Value	Label	Missing	Count	Percent	Valid Percent
831	Eurobarometer 83.1 (February-March 2015)		27980	100.0	100.0
	Sum		27980	100.0	100.0
	Valid Cases		27980		

caseid - TNS CASE ID (CROSS-NATIONAL SERIAL ID)

TNS case ID (cross-national serial id)

No original country specific CASE ID had been made available for Eurobarometer 83.1. All cases have ex-post been assigned a SERIAL CASE ID by TNS. Consequently, no UNIQID "UNIQUE RESPONDENT ID (CASEID BY TNS COUNTRY CODE)" has been constructed for this dataset.

Note:
Actual number is coded.

serialid - SERIAL CASE ID (APPOINTED BY THE ARCHIVE)

Serial case ID (appointed by the archive)

This unique respondent identification number has been appointed by the archive for version 1.0.0 of Eurobarometer survey 83.1. It shows the position of the cases in the dataset, starting with 1 and ending with 27980 (total number of cases).

Note:
Actual number is coded.

tnscntry - ORIGINAL TNS COUNTRY/SAMPLE ID

Original TNS country/sample ID

The original country identification codes as applied by the fieldwork institute (TNS).

isocntry - COUNTRY CODE - ISO 3166

Country code - in accordance with ISO 3166-1-alpha-2 country code

All surveyed countries and regions, i.e. including separate samples for East-/West-Germany, Great Britain/Northern Ireland, and the Turkish Cypriot Community (TCC), are coded in accordance with the ISO 3166-1-alpha-2 country code, if available. ISO 3166-2 is applied for the United Kingdom subdivisions. ISO standard codes are not available for the "historical" East/West subdivision of Germany (DE-E / DE-W) and for the Turkish Cypriot Community in northern Cyprus (CY-TCC), the internationally not recognized "Turkish Republic of Northern Cyprus".

Note:
Use of weighting factor w1 is optional.

w1 - WEIGHT RESULT FROM TARGET

w1 Weight result from target

This POST-STRATIFICATION WEIGHT is based on a comparison for each sample with the respective universe description. As such in all countries, gender, age, region and size of locality are introduced in the iteration procedure carried out by the fieldwork institutes.

British and Northern Irish as well as East and West German samples are weighted separately. The weight reproduces the real number of cases for each country. In terms of its general function it corresponds to former NATION WEIGHT II (until EUROBAROMETER 31 (March-April 1989)).

w3 - WEIGHT UNITED GERMANY ONLY

w3 Weight United Germany (only)

This POPULATION SIZE WEIGHT adjusts the East and the West German (sub-national) samples to their share in the total population aged 15 and over, of the united Germany. Weight w3 must be applied whenever Germany is to be analyzed as a whole. The post-stratification weighting factors are included for both samples. All other samples are excluded from analysis.

w4 - WEIGHT UNITED KINGDOM ONLY

w4 Weight United Kingdom (only)

This POPULATION SIZE WEIGHT adjusts the British and the Northern Irish (sub-national) samples to their share in the total population aged 15 and over in the United Kingdom. Weight w4 must be applied whenever the United Kingdom is to be analyzed as a whole. The post-stratification weighting factors are included for both samples. All other samples are excluded from analysis. In terms of its general function the weight corresponds to former NATION WEIGHT I (until EUROBAROMETER 31 (March-April 1989)).

w4

w9 - WEIGHT EU12+DE-E

w9 Weight EU12 + DE-E

This POPULATION SIZE WEIGHT equals WEIGHT EU12 but in addition including East Germany (former German Democratic Republic) after the unification of Germany on October 3, 1990 (Eurobarometer 34 (October-November 1990)). It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w9 must be applied whenever these twelve member countries are to be analyzed altogether as a group including the Eastern part of Germany (new German federal states).

w10 - WEIGHT EU NMS 3

w10 Weight EU NMS 3

This POPULATION SIZE WEIGHT only refers to the three new members as of January 1995: Austria, Finland, and Sweden. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this group of new member countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w10 must be applied whenever these three countries are to be analyzed altogether as a group.

w15 - WEIGHT EU AC3 (BG RO HR)

Weight EU AC3 (BG RO HR)

This POPULATION SIZE WEIGHT refers to Bulgaria, Romania, and Croatia. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this group of (former) EU accession countries Bulgaria and Romania (membership in 2007) and Croatia (membership in 2013). The post-stratification weighting factors are included. All other countries are excluded from calculation. Weight w15 must be applied whenever these three countries are to be analyzed altogether as a group.

w29 - WEIGHT EURO ZONE 15 (EU27)

w29 Weight EURO ZONE 15 (EU27)

This POPULATION SIZE WEIGHT separates the group of countries which have adopted the EURO as their currency until 2008. These are 15 member states: Belgium, Germany, Greece, Spain, France, Ireland, Italy, Luxembourg, the Netherlands, Austria, Portugal and Finland (introduction as of January 1, 2002), Slovenia (introduction as of January 1, 2007), Cyprus and Malta (introduction as of January 1, 2008). It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w29 must be applied whenever these countries are to be analyzed altogether as a group, e.g. when questions related to the introduction of the common European currency are concerned.

w30 - WEIGHT NON-EURO ZONE 15 (EU27)

w30 Weight NON-EURO ZONE 15 (EU27)

This POPULATION SIZE WEIGHT separates the group of countries (Denmark, United Kingdom, Sweden, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Slovakia, Bulgaria, Romania) which did not introduce the EURO up to January 1, 2008. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w30 must be applied whenever these countries are to be analyzed altogether as a group.

w90 - WEIGHT NON-EURO ZONE 17 (EU27)

w90 Weight NON-EURO ZONE 17 (EU27)

This POPULATION SIZE WEIGHT separates the group of countries (Denmark, United Kingdom, Sweden, Czech Republic, Hungary, Latvia, Lithuania, Poland, Bulgaria, Romania) which did not introduce the EURO up to January 1, 2011. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. It refers to the group of the EU27 countries excluding Croatia. Weight w90 must be applied whenever these countries are to be analyzed altogether as a group.

w86 - WEIGHT NON-EURO ZONE 19 (EU28)

w86 Weight NON-EURO ZONE 19 (EU28)

This POPULATION SIZE WEIGHT separates the group of countries (Denmark, United Kingdom, Sweden, Czech Republic, Hungary, Poland, Bulgaria, Romania, Croatia) which did not introduce the EURO up to January 1, 2015. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. It refers to the group of the EU28 countries including Croatia. Weight w86 must be applied whenever these countries are to be analyzed altogether as a group.

w84 - WEIGHT NON-EURO ZONE 19 - EU NMS 12 (EU27)

w84 Weight NON-EURO ZONE 19 - EU NMS 12 (EU27)

This POPULATION SIZE WEIGHT separates the group of countries (Czech Republic, Hungary, Poland, Bulgaria, and Romania) belonging to the 12 new members after the enlargement of January 2007 which did not introduce the EURO up to January 1, 2015. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this group of new member countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. It refers to the group of the EU27 countries excluding Croatia. Weight w84 must be applied whenever these five countries are to be analyzed altogether as a group.

wextra - WEIGHT EXTRAPOLATED POPULATION 15+

wextra Weight extrapolated population 15+

Weight wextra extrapolates the actual universe (population aged 15 or more) for each country (sample), i.e. this weight variable integrates all other available weights, but does not reproduce the number of cases in the dataset.

Note:

A dataset update has been provided by TNS and weighting variable WEXTRA (WEIGHT EXTRAPOLATED POPULATION 15+) has subsequently been merged into the dataset release (v2.0.0) by the archive.

polintr - POLITICAL INTEREST INDEX (D71_1/2/3)

Index of interest in politics

0 DK (coded 4 in d71_1, d71_2 and d71_3)

1 Not at all interested in politics

2 Slightly interested in politics

3 Moderately interested in politics

4 Strongly interested in politics

Derivation:

The POLITICAL INTEREST INDEX is based on the answers to the following question: "When you get together with friends or relatives, would you say you discuss frequently, occasionally or never about (national/European/local) political matters?" (d71_1, d71_2, and d71_3). According to former studies the index was constructed by first attributing a score to each item in d71 ("Never" = 0; "Occasionally" = 1; "Frequently"= 2) and then adding together the three political dimensions (national/European/local). This procedure results in four different index levels ("Not at all interested in politics" if added up score = 0; "Slightly" if added up score = 1 or 2; "Moderately" if added up score = 3 or 4 ; "Strongly" if added up score = 5 or 6) which have been coded accordingly into the categories 1 to 4. Furthermore combinations with DK responses in maximum two variables (d71a/b_1, d71a/b_2, and d71a/b_3) have been coded as follows: "DK" and "Never" = "Not at all"; "DK" and "Never" and "Occasionally" or "Frequently" = "Slightly"; "DK" and "Occasionally" and at least one "Frequently" = "Moderately".

Note:

This new POLITICAL INTEREST INDEX is introduced as C2 starting with EB 73.4. Please notice that in former waves up to EB 69.2 the VALUE ORIENTATION - POST-MATERIALISM index was named C2.

Compared to the original variable the scale has been inversed by the archive in accordance with former practice. Furthermore responses coded 'DK' to all source variables (d71_1, d71_2, and d71_3) have been recoded to '0' (DK).

Modified by the Archive.

See d71 for complete question text.

d62_3 - INTERNET USE FREQ: SOMEWHERE ELSE

B. DATA PROTECTION

D62

Could you tell me if…?

(SHOW SCREEN – READ OUT – ONE ANSWER PER LINE - "NO ANSWER" NOT ALLOWED)

D62_3 You use the Internet somewhere else (school, university, cyber-café, etc.)

1   Everyday/Almost everyday
2   Two or three times a week
3   About once a week
4   Two or three times a month
5   Less often
6   Never
7   No Internet access (SPONTANEOUS)

Comparability:

Last trend: EB82.4, D62

d62t1 - INTERNET USE - INDEX 1 (4 CAT)

Frequency of internet use - index with four categories

1   Everyday/Almost everyday (at least once coded 1 in d62_1 to d62_3)

2   Often/sometimes (at least once coded 2 to 5 in d62_1 to d62_3)

3   Never/No access (coded 6/7 or coded 6 in d62_1 to d62_3)

4   No internet access at all (coded 7 in d62_1 to d62_3)

Derivation:

This variable summarizes responses to d62 in four categories.

[d62 Could you tell me if…?

d62_1 You use the Internet at home

d62_2 You use the Internet at your place of work

d62_3 You use the Internet somewhere else (school, university, cyber-café, etc.)]

Respondents coded 1 at least once in d62_1 to d62_3 are coded 1 in d62t1 ("Everyday/Almost everyday"). Respondents coded 2, 3, 4 or 5 in each variable d62_1 to d62_3 are coded 2 ("Often/sometimes") in d62t1. Respondents coded 6 ("Never") in each variable d62_1 to d62_3 are coded 3 ("Never to all") in d62t1. Respondents coded 6 ("Never") in each variable d62_1 to d62_3, or at least once coded 6 in d62_1 to d62_3 and coded 7 ("No internet access") in the other variable(s), are coded 3 ("Never/No access") in d62t1. Respondents coded 7 ("No internet access") in each variable d62_1 to d62_3 are coded 4 ("No internet access at all") in d62t1.

Note:

See d62 for complete question text.

Please note that categories 3 and 4 of index variable d62t1 in EB 83.1 might differ from former surveys.

Variable d62t1 was named d62t in former versions of this dataset.

d62t2 - INTERNET USE - INDEX 2 (7 CAT)

Frequency of internet use - index with seven categories

1   Everyday/Almost everyday (at least once coded 1 in d62_1 to d62_3)

2   Two or three times a week (not coded 1 and at least once coded 2 in d62_1 to d62_3)

3   About once a week (not coded 1 to 2 and at least once coded 3 in d62_1 to d62_3)

4   Two or three times a month (not coded 1 to 3 and at least once coded 4 in d62_1 to d62_3)

5   Less often (not coded 1 to 4 and at least once coded 5 in d62_1 to d62_3)

6   Never/No access (coded 6/7 or coded 6 in d62_1 to d62_3)

7   No Internet access at all (coded 7 in d62_1 to d62_3)

Derivation:

This variable summarizes responses to d62.

[d62 Could you tell me if…?

d62_1 You use the Internet at home

d62_2 You use the Internet at your place of work

d62_3 You use the Internet somewhere else (school, university, cyber-café, etc.)]

Respondents coded 1 at least once in d62_1 to d62_3 are coded 1 in d62t2 ("Everyday/Almost everyday"). Respondents coded 2 at least once in d62_1 to d62_3 and not coded 1, are coded 2 in d62t2 ("Two or three times a week"). Respondents coded 3 at least once in d62_1 to d62_3 and not coded 1 or 2, are coded 3 in d62t2 ("About once a week"). Respondents coded 4 at least once in d62_1 to d62_3 and not coded 1 to 3, are coded 4 in d62t2 ("Two or three times a month"). Respondents coded 5 at least once in d62_1 to d62_3 and not coded 1 to 4, are coded 5 in d62t2 ("Less often"). Respondents coded 6 ("Never") in each variable d62_1 to d62_3, or at least once coded 6 in d62_1 to d62_3 and coded 7 ("No internet access") in the other variable(s), are coded 6 ("Never/No access") in d62t2. Respondents coded 7 ("No internet access") in each variable d62_1 to d62_3 are coded 7 ("No internet access at all") in d62t2.

Note:

See d62 for complete question text.

Generated by the Archive in accordance with former surveys.

Variable d62t2 was named netuse in former versions of this dataset.

qb1_1 - INTERNET ACTIVITY: ONLINE SOCIAL NETWORK

For this question and throughout the survey, the term "online" refers to all activities on the Internet, such as web browsing, use of online social networks, online purchases, etc., whether using a computer, a smartphone, a tablet or other devices.

QB1

ASK QB1 IF "USE THE INTERNET", CODE 1 TO 5 IN D62.1 OR D62.2 OR D62.3 – OTHERS GO TO QB2

Please tell me how often you do each of the following activities online.

(SHOW SCREEN - READ OUT - ONE ANSWER PER LINE)

QB1_1 Use an online social network, for instance to share pictures, videos, movies, etc.

1   Every day/Almost everyday
2   Two or three times a week
3   About once a week
4   Two or three times a month
5   Less often
6   Never
7   DK
9   Inap. Do not use the internet (coded 3 or 4 in d62t1)

qb1_2 - INTERNET ACTIVITY: PURCHASE GOODS/SERVICES

For this question and throughout the survey, the term "online" refers to all activities on the Internet, such as web browsing, use of online social networks, online purchases, etc., whether using a computer, a smartphone, a tablet or other devices.

QB1

ASK QB1 IF "USE THE INTERNET", CODE 1 TO 5 IN D62.1 OR D62.2 OR D62.3 – OTHERS GO TO QB2

Please tell me how often you do each of the following activities online.

(SHOW SCREEN - READ OUT - ONE ANSWER PER LINE)

QB1_2 Purchase goods or services online (e.g. travel & holiday, clothes, books, tickets, films, music, software, food)

1   Every day/Almost everyday
2   Two or three times a week
3   About once a week
4   Two or three times a month
5   Less often
6   Never
7   DK
9   Inap. Do not use the internet (coded 3 or 4 in d62t1)

qb1_5 - INTERNET ACTIVITY: PHONE OR VIDEO CALLS

For this question and throughout the survey, the term "online" refers to all activities on the Internet, such as web browsing, use of online social networks, online purchases, etc., whether using a computer, a smartphone, a tablet or other devices.

QB1

ASK QB1 IF "USE THE INTERNET", CODE 1 TO 5 IN D62.1 OR D62.2 OR D62.3 – OTHERS GO TO QB2

Please tell me how often you do each of the following activities online.

(SHOW SCREEN - READ OUT - ONE ANSWER PER LINE)

QB1_5 Make or receive phone calls or video calls over the Internet

1　Every day/Almost everyday

2　Two or three times a week

3　About once a week

4　Two or three times a month

5　Less often

6　Never

7　DK

9　Inap. Do not use the internet (coded 3 or 4 in d62t1)

qb9 - SOCIAL WEB PRIVACY SETTINGS - CHANGED

A personal profile on an online social network usually includes information such as your age, interests, a photo and an "about me" section. Profile visibility, i.e. who can see your information and interact with you, can, in some cases, be personalised by managing the privacy settings offered by the site.

QB9

ASK QB9 TO QB10B IF "USE ONLINE SOCIAL NETWORKS", CODE 1 TO 5 IN QB1.1 – OTHERS GO TO QB11A

Have you ever tried to change the privacy settings of your personal profile from the default settings on an online social network?

(ONE ANSWER ONLY)

1 Yes

2 No

3 DK

9 Inap. Do not use online social networks or DK (not coded 1 to 5 in qb1_1)

Note:

Nested question routing: the quoted filter reference (INAP) includes one or more preceding filter (or other) conditions for the exclusion of respondents.

qb16 - ONLINE ACTIVITY INFO - FOR ADVERTISEMENT

ASK QB13 TO QB16 IF "USE THE INTERNET", CODE 1 TO 5 IN D62.1 OR D62.2 OR D62.3 – OTHERS GO TO QB17

QB16

As you may know, some online companies are able to provide free services, such as search engines, free e-mail accounts, etc., thanks to the income they receive from advertisers trying to reach users on their websites. How comfortable are you with the fact that those websites use information about your online activity to tailor advertisements or content to your hobbies and interests?
(READ OUT – ONE ANSWER ONLY)

1 Very comfortable

2 Fairly comfortable

3 Fairly uncomfortable

4 Very uncomfortable

5 DK

9 Inap. Do not use the internet (coded 3 or 4 in d62t1)

qb17t - DATA PROCESSING APPROVAL REQUIRED - YES (SUM)

Respondents who say that their explicit approval should be required before any kind of personal information is collected and processed - summarized

0   No/DK

1   Total 'Yes'

Derivation:

This variable summarizes answers to qb17_1 to qb17_3.

[qb17 Should your explicit approval be required before any kind of personal information is collected and processed??

qb17_1 Yes, in all cases

qb17_2 Yes, in the case of personal information required online

qb17_3 Yes, in the case of sensitive information whether online or offline (e.g. health, religion, political beliefs, sexual preferences, etc.)]

Note:

See qb17 for complete question text.

qb20 - PERSONAL DATA - TRANSFER TO NEW PPROVIDER

Here we are referring to the possibility of having your personal data transferred from a provider to another one when you CHANGE providers. It DOES NOT refer to having the right to ask a provider to delete all your personal data from their servers, database, etc. if you decide to stop being a client.

QB20
ASK QB20 IF "USE THE INTERNET", CODE 1 TO 5 IN D62.1 OR D62.2 OR D62.3 – OTHERS GO TO QB21
When you decide to change online service providers (e.g. an online social network or a cloud service provider), how important or not is it for you to be able to transfer personal information that was stored and collected by the old provider to the new one?
(READ OUT – ONE ANSWER ONLY)

1   Very important
2   Fairly important
3   Not very important
4   Not at all important
5   DK
9   Inap. Do not use the internet (coded 3 or 4 in d62t1)

d1r1 - LEFT-RIGHT PLACEMENT: 3 CAT (RECODED)

Left-right placement - recoded to three categories

1 (1 - 4) Left

2 (5 - 6) Centre

3 (7 -10) Right

9 DK/Refusal (Spontaneous)

Derivation:

This variable collapses answers to d1 into three categories.

[d1 In political matters people talk of "the left" and "the right". What is your position? Please use a scale from 1 to 10, where '1' means "left" and '10' means "right". Which number best describes your position?]

Note:

See d1 for complete question text.

d7 - MARITAL STATUS

D7

Which of the following best corresponds to your own current situation?

(SHOW SCREEN – READ OUT – ONE ANSWER ONLY - CODE "NO ANSWER" IN CODE 16)

MARRIED OR REMARRIED

1   Living without children

2   Living with the children of this marriage

3   Living with the children of a previous marriage

4   Living with the children of this marriage and of a previous marriage

SINGLE LIVING WITH A PARTNER

5   Living without children

6   Living with the children of this union

7   Living with the children of a previous union

8   Living with the children of this union and of a previous union

SINGLE

9   Living without children

10   Living with children

DIVORCED OR SEPARATED

11   Living without children

12   Living with children

WIDOW/ER

13   Living without children

14   Living with children

15   Other (SPONTANEOUS)

97   Refusal (SPONTANEOUS)

Note:

Original code "16" recoded to "97".

d7r1 - MARITAL STATUS: 5 CAT (RECODED)

Marital status recoded to five categories with focus on partnership

1   (Re-)Married (coded 1 to 4 in d7)
2   Single living with partner (coded 5 to 8 in d7)
3   Single (coded 9 to 10 in d7)
4   Divorced or separated (coded 11 to 12 in d7)
5   Widow (coded 13 to 14 in d7)
6   Other (SPONTANEOUS)
7   Refusal (SPONTANEOUS)

Derivation:

This variable collapses answers to d7 into five categories.

[d7 Which of the following best corresponds to your own current situation?]

Note:

See d7 for complete question text.

d7r2 - MARITAL STATUS: 4 CAT (RECODED)

Marital status recoded to four categories with focus on marriage

1 Unmarried (coded 9 to 10 in d7)

2 (Re-)Married/Single with partner (coded 1 to 8 in d7)

3 Divorced or separated (coded 11 to 12 in d7)

4 Widow (coded 13 to 14 in d7)

5 Other (SPONTANEOUS)

7 Refusal (SPONTANEOUS)

Derivation:

This variable collapses answers to d7 into four categories.

[d7 Which of the following best corresponds to your own current situation?]

Note:

See d7 for complete question text.

d8 - AGE EDUCATION

D8

How old were you when you stopped full-time education?

(IF "STILL STUDYING", CODE '00' – IF "NO EDUCATION" CODE '01' – IF "REFUSAL" CODE '98' – IF "DK" CODE '99' - CODE "NO ANSWER" IN CODE 98)

(MAKE SURE THE RESPONDENT UNDERSTANDS THAT D8 IS ABOUT FULL-TIME EDUCATION)

0   Refusal

2   2 years

71 71 years

90 90 years

97 No full-time education

98 Still studying

99 DK

Note:

Original code "00" recoded to "98".

Original code "01" recoded to "97".

Original code "98" recoded to "0".

Please note that users might be advised to consider pre-school ages (outliers) as with "no full-time education" or to treat them as missing values.

Actual number is coded.

Comparability:

Last trend: EB82.4, D8

d8r1 - AGE EDUCATION: 11 CAT (RECODED)

Age when finished full-time education - recoded to 11 categories

1 Up to 14 years
2 15 years
3 16 years
4 17 years
5 18 years
6 19 years
7 20 years
8 21 years
9 22 years and older
10 Still studying
11 No full-time education
97 Refusal
98 DK

Derivation:

This variable collapses answers to question d8 for indicated ages lowest (2) to 14 and 22 to highest (90).

[d8 How old were you when you stopped full-time education?]

Note:

See d8 for complete question text.

d8r2 - AGE EDUCATION: 5 CAT (RECODED)

Age when finished full-time education - recoded to five categories

1   Up to 15 years
2   16-19 years
3   20 years and older
10 Still studying
11 No full-time education
97 Refusal
98 DK

Derivation:

This variable collapses answers to question d8 into three age groups.

[d8 How old were you when you stopped full-time education?]

Note:

See d8 for complete question text.

d11r1 - AGE: 4 GROUPS (RECODED)

Age of respondent - recoded to four categories

1   15 - 24 years

2   25 - 39 years

3   40 - 54 years

4   55 years and older

Derivation:

This variable collapses answers to d11 into four categories.

[d11 How old are you?]

Note:

See d11 for complete question text.

d11r2 - AGE: 6 GROUPS (RECODED)

Age of respondent - recoded to six categories

1   15 - 24 years

2   25 - 34 years

3   35 - 44 years

4   45 - 54 years

5   55 - 64 years

6   65 years and older

Derivation:

This variable collapses answers to d11 into six categories.

[d11 How old are you?]

Note:

See d11 for complete question text.

gen1 - GENERATION BEFORE 1928 (AGE 88-99)

Generation born before 1928 (age 88 and older)

0   Not mentioned

1   Mentioned

Derivation:

This variable summarizes all respondents born before 1928 and is based on questions d11 ("How old are you?"). Please note that variables gen1 to gen6 are based on age instead of year of birth, which may entail a slightly inaccurate categorization for some respondents.

Note:

See d11 for complete question text.

gen2 - GENERATION 1928-1945 (AGE 70-87)

Generation born between 1928 and 1945 (age 70-87)

0 Not mentioned

1 Mentioned

Derivation:

This variable summarizes all respondents born between 1928 and 1945 and is based on questions d11 ("How old are you?"). Please note that variables gen1 to gen6 are based on age instead of year of birth, which may entail a slightly inaccurate categorization for some respondents.

Note:

See d11 for complete question text.

d15a - OCCUPATION OF RESPONDENT

D15A

What is your current occupation?

(DO NOT SHOW SCREEN – "NO ANSWER" NOT ALLOWED - IF D15A=2 THEN D8=00 - IF D15<>2 AND D8=00 THEN CORRECT D8

OR CHANGE THE ANSWER IN D15A)

NON-ACTIVE

1   Responsible for ordinary shopping and looking after the home, or without any current occupation, not working

2   Student

3   Unemployed or temporarily not working

4   Retired or unable to work through illness

SELF EMPLOYED

5   Farmer

6   Fisherman

7   Professional (lawyer, medical practitioner, accountant, architect, etc.)

8   Owner of a shop, craftsmen, other self-employed person

9   Business proprietors, owner (full or partner) of a company

EMPLOYED

10   Employed professional (employed doctor, lawyer, accountant, architect)

11   General management, director or top management (managing directors, director general, other director)

12   Middle management, other management (department head, junior manager, teacher, technician)

13   Employed position, working mainly at a desk

14   Employed position, not at a desk but travelling (salesmen, driver, etc.)

15   Employed position, not at a desk, but in a service job (hospital, restaurant, police, fireman, etc.)

16   Supervisor

17   Skilled manual worker

18   Other (unskilled) manual worker, servant

d15a_r1 - OCCUPATION OF RESPONDENT (RECODED)

Occupation of respondent - recoded to employment status

1   Self-employed (coded 5 to 9 in d15a)

2   Employed (coded 10 to 18 in d15a)

3   Not working (coded 1 to 4 in d15a)

Derivation:

This variable collapses answers to d15a into three categories.

[d15a What is your current occupation?]

Note:

See d15a for complete question text.

d15a_r2 - RESPONDENT OCCUPATION SCALE (C14)

Occupation of respondent - scale (C14)

1   Self-employed (coded 5 to 9 in d15a)

2   Managers (coded 10 to 12 in d15a)

3   Other white collars (coded 13 or 14 in d15a)

4   Manual workers (coded 15 to 18 in d15a)

5   House persons (coded 1 in d15a)

6   Unemployed (coded 3 in d15a)

7   Retired (coded 4 in d15a)

8   Students (coded 2 in d15a)

Derivation:

This scale is based on a combination/selection of answers to variable d15a.

[d15a What is your current occupation?]

Note:

See d15a for complete question text.

d15b - OCCUPATION OF RESPONDENT - LAST JOB

D15B

ASK D15B IF "NOT DOING ANY PAID WORK CURRENTLY", CODES 1 TO 4 IN D15A

Did you do any paid work in the past? What was your last occupation?

(DO NOT SHOW SCREEN – "NO ANSWER" NOT ALLOWED)

SELF EMPLOYED

1 Farmer

2 Fisherman

3 Professional (lawyer, medical practitioner, accountant, architect, etc.)

4 Owner of a shop, craftsmen, other self-employed person

5 Business proprietors, owner (full or partner) of a company

EMPLOYED

6 Employed professional (employed doctor, lawyer, accountant, architect)

7 General management, director or top management (managing directors, director general, other director)

8 Middle management, other management (department head, junior manager, teacher, technician)

9 Employed position, working mainly at a desk

10 Employed position, not at a desk but travelling (salesmen, driver, etc.)

11 Employed position, not at a desk, but in a service job (hospital, restaurant, police, fireman, etc.)

12 Supervisor

13 Skilled manual worker

14 Other (unskilled) manual worker, servant

15 Never did any paid work

97 Refusal

99 Inap. Currently doing paid work (not coded 1 to 4 in d15a)

Note:

In accordance with former waves coding has been (correctly) shifted compared to the questionnaire.

d15b_r - OCCUPATION OF RESPONDENT - LAST JOB (RECODED)

Occupation of respondent: last job - recoded to employment status

1   Self-employed (coded 1 to 5 in d15b)

2   Employed (coded 6 to 14 in d15b)

3   Never paid work (coded 15 in d15b)

7   Refusal

9   Inap. Currently doing paid work (not coded 1 to 4 in d15a)

Derivation:

This variable collapses answers to d15b into three categories.

[d15b Did you do any paid work in the past? What was your last occupation?]

Note:

See d15b for complete question text.

28 Twenty-eight
99 DK/NA (coded 99 in d40a or d40b or d40c)

Derivation:
This variable summarizes d40a, d40b, and d40c.

[d40a Could you tell me how many people aged 15 years or more live in your household, yourself included?

d40b Could you tell me how many children aged 10 to 14 years old live in your household?

d40c Could you tell me how many children less than 10 years old live in your household?]

Note:
See d40a, d40b, and d40c for complete question text.

Variable d40t was named d40abc in former versions of this dataset.

Generated by the Archive in accordance with former surveys.

9 DK/NA (coded 99 in d40a or d40b or d40c)

Derivation:

This variable groups the summarized variable d40t.

[d40a Could you tell me how many people aged 15 years or more live in your household, yourself included?

d40b Could you tell me how many children aged 10 to 14 years old live in your household?

d40c Could you tell me how many children less than 10 years old live in your household?]

Note:

See d40a, d40b, and d40c for complete question text.

Variable d40t_r was named d40abc_r in former versions of this dataset.

d40t_r by isocntry, Absolute Values (Row Percent), weighted by w1

d40_d11 - ONE-PERSON HOUSEHOLD COMPOSITION BY AGE

One-person households - recoded to three age categories

1   15 - 29 years

2   30 - 59 years

3   60 years and older

9   Inap. No one-person-household (not coded 1 in d40t)

Derivation:

This variable collapses answers to d11 into three age categories, but only for one-person households.

[d11 How old are you?

d40a Could you tell me how many people aged 15 years or more live in your household, yourself included?

d40b Could you tell me how many children aged 10 to 14 years old live in your household?

d40c Could you tell me how many children less than 10 years old live in your household?]

Note:

See d11 and d40a, d40b, and d40c for complete question text.

Variable d40_d11 was named d40 in former versions of this dataset.

p1 - DATE OF INTERVIEW

INTERVIEW PROTOCOLE

p1 Date of the interview

1   Saturday 28th February 2015

2   Sunday 1st March 2015

3   Monday 2nd March 2015

4   Tuesday 3rd March 2015

5   Wednesday 4th March 2015

6   Thursday 5th March 2015

8   Saturday 7th March 2015

9   Sunday 8th March 2015

10   Monday 9th March 2015

Note:

Please note that in the case of Poland the interview dates in protocol variable P1 „DATE OF INTERVIEW" differ from the fieldwork dates

declared in official reports. According to official documents the survey was carried out between February 28 and March 09, 2015 in Poland.

Variable P1 indicates March 01 as the beginning of fieldwork period for Poland.

p6fr - SIZE OF COMMUNITY - FRANCE

p6fr Objective size of community: France

1   Rural area

2   Towns and suburbs/small urban area

3   Cities/large urban area

99   Inap. (not FR in isocntry)

Note:

Starting with Eurobarometer 81.3, the category scheme for country specific protocol variables P6 (SIZE OF COMMUNITY) has changed considerably, except for Germany. Categories for all other countries have been harmonized among each other to three values (Rural area - Towns and suburbs/small urban area - Cities/large urban areas).

Comparability:

Last trend: EB82.4, P6

p6fr, weighted by w1

Value	Label	Missing	Count	Percent	Valid Percent
1	Rural area		172	0.6	16.8
2	Towns and suburbs/small urban area		610	2.2	59.5
3	Cities/large urban area		243	0.9	23.7
99	Inap. (not FR in isocntry)	M	26955	96.3	
	Sum		27980	100.0	100.0
	Valid Cases		1025		

p6be - SIZE OF COMMUNITY - BELGIUM

p6be Objective size of community: Belgium

1   Rural area

2   Towns and suburbs/small urban area

3   Cities/large urban area

99   Inap. (not BE in isocntry)

Note:

Starting with Eurobarometer 81.3, the category scheme for country specific protocol variables P6 (SIZE OF COMMUNITY) has changed considerably, except for Germany. Categories for all other countries have been harmonized among each other to three values (Rural area - Towns and suburbs/small urban area - Cities/large urban areas).

Comparability:

p7it_r2 - REGION - ITALY NUTS 1 MOD

p7it_r2 Italy (EUROSTAT NUTS 1 LEVEL – modified) – Gruppi di regioni (11 categories)

1   Nord-Ovest (North-West)

2   Lombardia (Lombardy)

3   Nord-Est (North-East)

4   Emilia-Romagna

5   Centro (Center)

6   Lazio

7   Abruzzo & Molise

8   Campania

9   Sud (South)

10   Sicilia (Sicily)

11   Sardegna (Sardinia)

99   Inap. (not IT in isocntry)

Note:

This variable has been generated by the Archive in accordance with former waves. The combination of regions and NUTS levels does not comply with official EUROSTAT specifications.

Starting with Eurobarometer wave 77 (NUTS version 2010 with regular amendment as of January 1, 2012) NUTS 1 codes for Italy have changed for North-East (ITH instead of ITD) and Center (ITI instead of ITE). The reason for this are minor boundary shifts on NUTS 2 and 3 level (ITI3: Marche and ITH5: Emilia Romagna).

Comparability:

Last trend: EB82.4, P7

p7pt - REGION - PORTUGAL NUTS 2

p7pt Portugal (EUROSTAT NUTS 2 LEVEL) – Comissaoes de Coordenaçao regional + Regioes autonomas

1   Norte (North) [PT]

2   Centro (Center) [PT]

3   Área Metropolitana de Lisboa (Lisbon metropolitan area)

4   Alentejo (Alentejo Region)

5   Algarve

99   Inap. (not PT in isocntry)

Note:

The autonomous regions of the Azores (PT20 - Região Autónoma dos Açores) and of Madeira (PT30 - Região Autónoma da Madeira) are not covered.

Since 2002 the region "Lisboa e vale do tejo" is split up and the subregion "Lezíria do Tejo" reinstated to the "Alentejo" Region and the "Médio Tejo" and "Oeste" reinstated to the "Centro" Region. The relative frequencies for each region indicate that this is reflected in the Eurobarometer P.7 regions starting with Eurobarometer 62.0. The original label for category '3' ("Lisboa e vale do Tejo") has been edited accordingly. According to the NUTS 2 specifications for Portugal this now only includes "Grande Lisboa" and "Península de Setúbal".

Please note that according to the NUTS version 2013 with regular amendment as of January 1, 2015, and starting with Eurobarometer 83.1 category "3" is labelled "Área Metropolitana de Lisboa".

The official NUTS categories are coded and documented in the integrated alphanumeric NUTS CODES variable 'nuts'.

Derivation:

This additional alphanumeric NUTS CODES variable is produced by the archive. It integrates all country specific p7 variables given that the regional units are defined in accordance with the EUROSTAT Nomenclature of Territorial Units for Statistics (NUTS) respectively in accordance with the Statistical Regions for Candidate and EFTA Countries 2010. For each country the lowest available NUTS subdivision level is considered.

Note:

The official NUTS codes are coded verbatim in accordance with the in each case valid (applicable) NUTS version. All version details and changes are documented in the official EUROSTAT classification history (History of NUTS). A second variable (nutslvl) indicates the coded NUTS LEVEL for each country.

France:

The territorial unit of Corse (FR83) and the Oversea departments (Départements d'outre-mer: FR9) are not covered.

Italy:

Starting with Eurobarometer wave 77 (NUTS version 2010 with regular amendment as of January 1, 2012) NUTS 1 codes for Italy have changed for North-East (ITH instead of ITD) and Center (ITI instead of ITE). The reason for this are minor boundary shifts on NUTS 2 and 3 level (ITI3: Marche and ITH5: Emilia Romagna).

Ireland:

Starting with EB 81.3 the category scheme for country specific protocol variable P7 (REGION) has changed for Ireland introducing NUTS 3 categories.

Greece:

The Aegean Islands (EL41 - Βόρειο Αιγαίο/Voreio Aigaio and EL42 - Νότιο Αιγαίο/Notio Aigaio) as well as the Ionian Islands (EL22 - Ιόνια Νησιά/Ionia Nisia) are not covered.

Starting with Eurobarometer wave 77 (NUTS version 2010 with regular amendment as of January 1, 2012) the standard country prefix 'GR' is replaced by 'EL'. The remaining numerical part of the codes remains unaffected.

Spain:

The autonomous cities of Ceuta (ES63 - Ciudad Autónoma de Ceuta) and Melilla (ES64 - Ciudad Autónoma de Melilla) are not covered.

Portugal:

The autonomous regions of the Azores (PT20 - Região Autónoma dos Açores) and of Madeira (PT30 - Região Autónoma da Madeira) are not covered.

Please note that according to the NUTS version 2013 with regular amendment as of January 1, 2015, and starting with Eurobarometer 83.1 code "PT17" is labelled "Área Metropolitana de Lisboa".

Finland:

Starting with EB 81.3 for Finland only one country specific protocol variable P7 (REGION) is available. The variable p7fi corresponds to the NUTS 2 breakdown in accordance to NUTS 2010 with regular amendment as of January 1, 2012. The NUTS 3 breakdown is no longer available for Finland.

Estonia:

Starting with EB 81.3 the category scheme for country specific protocol variable P7 (REGION) has changed for Estonia introducing the official NUTS 3 categories.

Bulgaria:

Starting with EB 81.3 for Bulgaria only one country specific protocol variable P7 (REGION) is available. The NUTS 3 breakdown is no longer available for Bulgaria.

Croatia:

Starting with EB 81.3 the category scheme for country specific protocol variable P7 (REGION) has changed for Croatia introducing the NUTS 2 and NUTS 3 categories.

Comparability:

nuts (REGION - NUTS CODES) in EB82.4

nutslvl - REGION - NUTS LEVEL

nutslvl REGION - NUTS LEVEL

0   No NUTS units
1   NUTS level 1
2   NUTS level 2
3   NUTS level 3

Derivation:

This variable identifies the lowest available NUTS LEVEL as coded for each country in variable NUTS CODES variable 'nuts'.

Starting with EB 81.3 the category scheme for country specific protocol variables P7 (REGION) have changed for some countries, in particular introducing NUTS categories for Ireland, Estonia and Croatia, and modifying NUTS categories for Finland and Bulgaria.

p13be - LANGUAGE OF INTERVIEW - BELGIUM

p13be Language of interview: Belgium

1 French

2 Dutch

9 Inap. (not BE in isocntry)

Note:

Starting with Eurobarometer 73.5 (June 2010) the original data for p13be (LANGUAGE OF INTERVIEW - BELGIUM) are usually reversed, i.e. (almost) all respondents in NUTS 1 regions Wallonia and Brussels are coded as "Dutch" and (almost) all respondents in the Flemish Region as "French" in p13be. This is true for EB 83.1 and the data have been corrected by the Archive since version v1-0-0.

Comparability:

Last trend: EB82.4, P13

p13be

Value	Label	Missing	Count	Percent	Valid Percent
1	French		460	1.6	45.5
2	Dutch		551	2.0	54.5
9	Inap. (not BE in isocntry)	M	26969	96.4	
	Sum		27980	100.0	100.0
	Valid Cases		1011		

p13lu - LANGUAGE OF INTERVIEW - LUXEMBOURG

p13lu Language of interview: Luxembourg

1   Luxembourgish

2   French

3   German

9   Inap. (not LU in isocntry)

Note:

The coding for LANGUAGE OF QUESTIONNAIRE in LUXEMBOURG was highly questionable. If comparing frequencies for GERMAN and FRENCH with former waves, these two categories are supposed to be exchanged. The variable has been corrected by the Archive (recode p13lu (2=3) (3=2)) in version v1-0-0.

Comparability:

Last trend: EB82.4, P13

p13lu

Value	Label	Missing	Count	Percent	Valid Percent
1	Luxembourgish		67	0.2	13.1
2	French		439	1.6	85.9

w3a - WEIGHT RESULT FROM TARGET - UNITED GERMANY

w3a Weight result from target - United Germany

This weight combines the weighting factors for Germany as a whole (redressment factors plus populations size factors East/West) and the redressment factors for all other countries (Great Britain and Northern Ireland separated). This weight has been derived by the archive from original TNS weights w1 and w3. Unlike weighting variable w3 (WEIGHT UNITED GERMANY (ONLY)) the other countries/samples are not excluded from calculation.

Note:

Starting with Eurobarometer 75.4 and according to available weights up to Eurobarometer 61, the archive is deriving three additional weights (w3a, w4a, w3a4a) in order to provide for the analysis of the United Kingdom and/or Germany, each as a whole and together with all other countries. Minimal deviations in frequencies for weighted data are possible due to rounding differences.

w3a
